

APPLY TO BE ON THE NSRH BOARD OF DIRECTORS!

The Nurses for Sexual and Reproductive Health Board of Directors is seeking nominations for NEW BOARD members. Please consider applying to be a member of this exciting governing board, which works to help promote, sustain, and support the mission of NSRH and the efforts of our Executive Director and staff. We are seeking to recruit folks for the NSRH board who would be able to contribute specific skills, such as prior board experience, knowledge of board governance, strategic planning, finance or fundraising, and who can make a realistic commitment to the time required for board work (8-10 hours/month; more at times, plus an annual meeting). We are committed to continuing to diversify our board (particularly with respect to age, gender, race, geographical location) and, as always, we are seeking to maintain a nursing majority on our board while continuing to work closely with nursing allies.

If you are interested and/or if you know of someone whom you think we should actively recruit, please let us know! Please email our Recruitment Committee co-chair Debbie Bamberger debbiebamberger@gmail.com with any questions and for the application materials.

Deadline to Apply: December 15, 2021

New Board Member Terms Begin: July 1, 2022
